## **School Certification for the Federal Teacher Loan Forgiveness Program**

Certification of a school will result in the school being placed on the annual Directory of Designated Low-Income Schools for Teacher Cancellation Benefits, a federal list of schools which will then allow certain teachers currently repaying a Perkins Loan or a Stafford/FFEL Loan to contact their loan providers and possibly have a portion of their loan forgiven through the Federal Loan Forgiveness Program for Teachers. The criteria for determining school eligibility for certification are:

- Applicants for certification must be registered as a nonprofit private school with the Florida Department of Education (FLDOE). ;
- Private schools must be nonprofit. A copy of IRS correspondence determining the school's Nonprofit Status is needed with the Private School Eligibility Application form and;
- School grades must be Elementary and/or Secondary (K-12);
- Schools must determine that 35% or more of their students are considered low income in relation to the total membership (K-12) of the school\* and;

Once you have determined school eligibility and believe the school meets all the above criteria, complete the Nonprofit Private School Eligibility Application form to request certification. A separate form is needed for each school. You can submit qualifying information for past years by changing the school year on the form and providing appropriate data for that year following the same process as for the current application school year. New forms must be completed each school year.

Visit [http://www.floridaschoolchoice.org/Information/Private\\_Schools/assistance\\_resources/ftlfp.asp](http://www.floridaschoolchoice.org/Information/Private_Schools/assistance_resources/ftlfp.asp) for more information.

NOTE: The Florida Department of Education does NOT make determinations as to teacher loan forgiveness. All questions about loan reductions need to be made by the teachers to the teacher's loan company and not to the FLDOE. Information concerning the cancellation or reduction of loans can be found at the following Federal site: <http://www.studentaid.ed.gov>.

Submission of data for a nonexistent school or an institution providing no instruction or training, the purpose of which is to defraud the public, is unlawful and the person or persons responsible commit a misdemeanor of the second degree, punishable as provided in Section 775.082, or Section 775.083, Florida Statutes. ## Private School Closure

When a private school shuts down, or has no students, it is required to transfer all permanent student records to the superintendent of the public school district in which it was located. If a member of a private school system or association, the school may transfer records to the principal office of the system or association. The school should then notify the Department of Education of the date of transfer of student records, the location of storage, the custodian of such records, and the number of records to be stored. The department acts as a clearinghouse and maintains a registry of transfers of student records.

It is not the intent of the Legislature to limit or restrict the use or possession of any student records while a school is operational, but to facilitate access to academic records by former students seeking to continue their education or training after a private school has become defunct. **(Section 1002.42, F.S.)**
