DISTRICT FRANCHISES OF FLORIDA VIRTUAL SCHOOL

Florida school districts may operate their own franchises of Florida Virtual School (FLVS). District franchises offer FLVS middle and high school courses to public, private and home education students who reside within the district. District administrators operate the franchises and district teachers provide the instruction. FLVS provides professional development and mentoring for district teachers and administrators, the curriculum and numerous learning resources and tools.

DISTRICT VIRTUAL COURSE OFFERINGS

Districts may offer individual virtual courses under section 1003.498, Florida Statutes. These courses may be offered to full-time students in district school settings or to students who meet one of the eligibility criteria outside of traditional school settings. In addition, eligible students from other districts may enroll in these courses if they are not offered online or face-to-face in their home district or school.

Charter Virtual Education

VIRTUAL CHARTER SCHOOLS

Approved virtual charter schools serve full-time students in grades K-12 who meet the eligibility requirements. The virtual charter school must contract with an approved private provider or with Florida Virtual School for its virtual instruction program.

BLENDED LEARNING

Approved Charter schools may offer a combination of traditional classroom and online instruction serving full-time students enrolled in a brick and mortar charter school.
